THE PERFECT TENDER FOR YOUR FARM

Meridian Manufacturing offers the largest selection of seed tenders in the seed handling industry and can accommodate any farming operation. Meridian takes the work out of loading seed into your planter or drill—decreasing the down time in the field in order to keep your tractor and planter moving.

Our tenders were designed with you in mind. We've optimized our tenders for various seed products, larger volume throughout, increased holding capacities, new hydraulic drive with wireless remote control and an our premium powder coat paint finish that creates a superior paint adhesion for our tenders and the trailers they are mounted on.

How do I pick the seed tender that's right for me?

Meridian's service starts before you purchase a bulk seed tender by helping you select the unit with the options and accessories to best suit your farming operation.

Several factors must be addressed when choosing a Bulk Seed Tender:

- Your planter model
- The crops you grow
- Your total acreage
- Bulk or box seed

Meridian's sales team, in addition to our dealer network, is available to help with those decisions.

SEED TITAN 2™

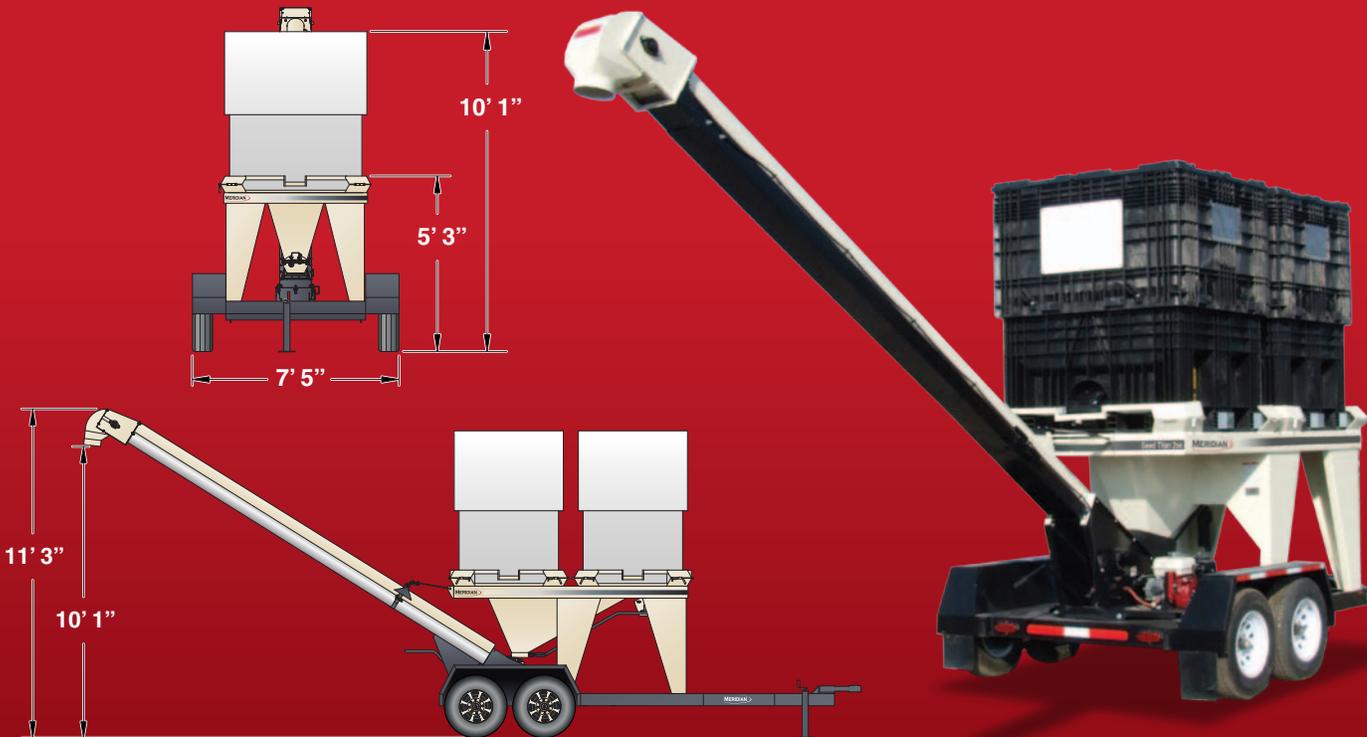

**SEED TITAN 2™**

Designed to hold two bulk seed boxes, the Seed Titan 2™ functions great for filling individual seed boxes and handling commodities like corn, beans, wheat and oats. Its patented one-step loading design can have your tender securely loaded and down the road in no time.

Standard Features:

- Box guides US Patent #6,964,551
- Lift assist on tube sweep
- 6" auger with Polycup Flighting
- Unloads up to 400# per minute
- Powder coat finish on the tender and trailer
- Electric start Honda gas engine
- Secure lockdowns
- Total clean out
- Easy gate controls
- Low profile deck
- Actuator switch on spout
- T7000ST Trailer included
- Tandem 3500# – Torsion axles with electric brakes and lights
- 3 tier telescopic spout

SEED TITAN 2 SE™

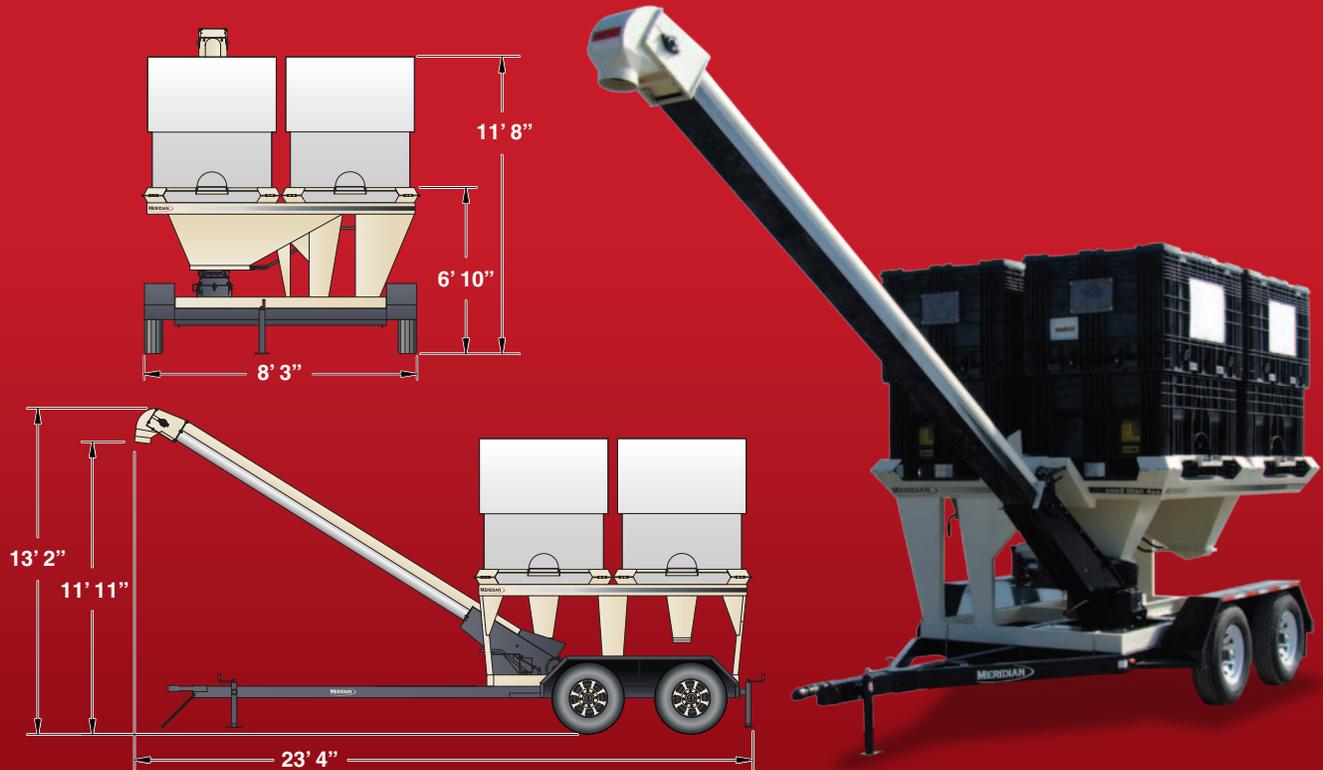

SEED TITAN 2 SE™

Like its predecessor, the Seed Titan 2 SE™ is designed to accommodate two bulk seed boxes. The cleated belt conveyor allows for larger volume seed transfer, at a reduced speed, into individual planter seed boxes or a bulk fill planter box. The Seed Titan 2SE™ works great for handling commodities like corn, beans, rice, peanuts, cotton, wheat and oats.

Standard Features:

- Box guides US Patent #6,964,551
- Secure lockdowns
- Total clean out
- Easy gate controls
- Low profile deck
- Electric start Honda gas engine
- Powder coat finish on the tender and trailer
- 6" Conveyor w/ 8" cleated belt
- 32° conveyor incline
- 180° swing – most variable conveyor available
- Rubber lined hood
- Shut off gate
- Unloads up to 1200# per minute
- Variable speed–control your flow
- Lower throttle control
- T7000SET Trailer included
- Tandem 3500# – torsion axles with electric brakes and lights
- Features the Meridian Cleated Belt™

SEED TITAN 4 SE™

SEED TITAN 4 SE™

Designed to accommodate four bulk seed boxes, The Seed Titan 4 SE™ was developed for operations that purchase their seed in bulk boxes, giving producers the flexibility of taking up to four different seeds varieties to the field. The cleated belt conveyor allows for larger volume seed transfer at reduced speed into individual planter seed boxes or a bulk fill planter box. This model can be equipped with a scale options kit to help ensure even filling.

The Seed Titan 4SE™ works great for handling commodities like corn, beans, rice, peanuts, cotton, wheat and oats.

Standard Features:

- Box guides US Patent #6,964,551
- Secure lockdowns
- Total clean out
- Easy gate controls
- Low profile deck
- HP electric start Honda gas engine
- Powder coat finish on the tender and trailer – durable and glossy
- 6" conveyor w/8" cleated belt
- 32° conveyor incline
- 180° swing – most variable conveyor available
- Rubber lined hood
- 4 shut off gates
- Ultimate Reach Conveyor™ (2' Longer)
- Unloads up to 1200# per minute
- Lower throttle control
- Actuator switch on spout
- T14000ST trailer
- Tandem 7000# – torsion axles with electric brakes and lights
- Features the Meridian Cleated Belt™

Options:

- Scales

110 SEED EXPRESS™

110 SEED EXPRESS™

In service for nearly 20 years, the 110 BST has a compact design that can easily be pulled on its own trailer or loaded into a truck box. This unit works great for handling commodities like corn, beans, wheat and oats.

Standard Features:

- Roll back safety lid
- Shut off gate
- Clean out door
- 6" auger with Polycup Flighting
- Electric start Honda gas engine
- Clutch system
- 3 tier telescopic spout
- Wired remote throttle control
- Powder coat finish on the tender and trailer

Option:

- Trailer

220 SEED EXPRESS™

220 SEED EXPRESS™

A farming workhorse for almost 20 years, the 220 BST unit is equipped with two compartments, holding enough seed to keep you in the field all day. This model works great as a tender for planters with individual boxes and bulk fill planters. Fill your planter with ease by using the control located at the end of the spout. The 220 BST is great for handling commodities such as corn, beans, wheat and oats.

Standard Features:

- Roll back safety lids
- Shut off gates
- Clean out door
- 6" auger auger with Polycup Flighting
- Electric start Honda gas engine
- Clutch system
- 3 tier telescopic spout
- Wired remote throttle control
- Powder coat finish on the tender and trailer
- Bulk fill auger

Options:

- Scales

240RT / 375RT SEED EXPRESS™

240RT SEED EXPRESS™

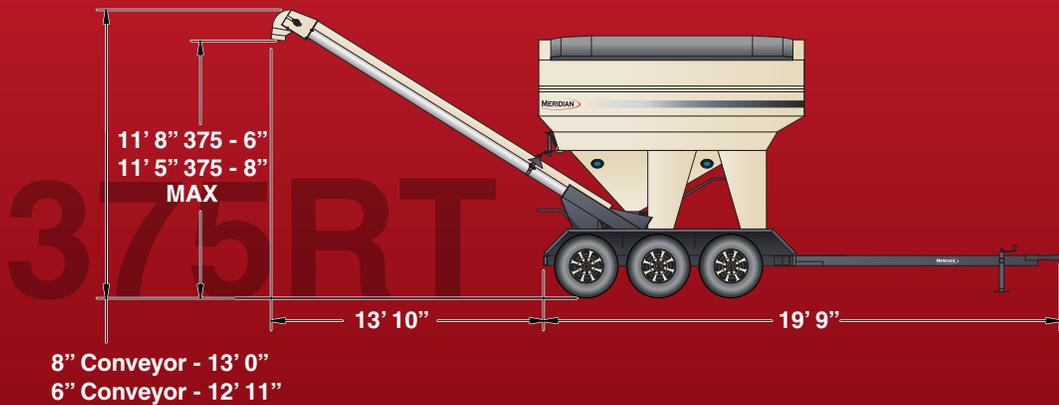

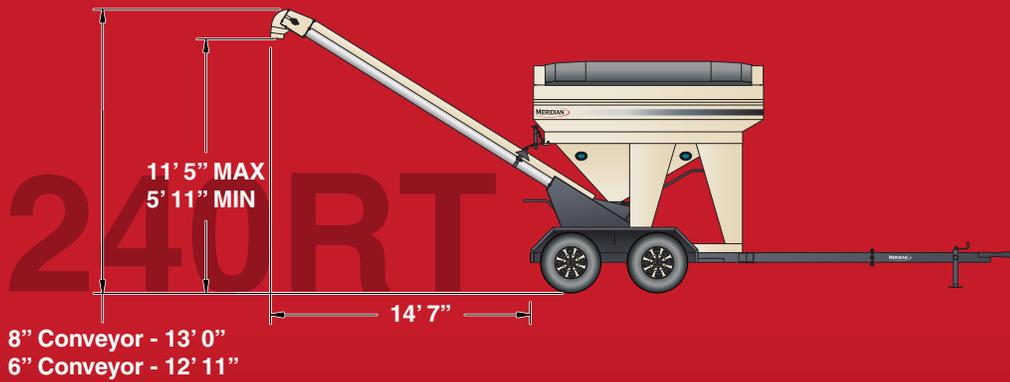

375RT SEED EXPRESS™

240RT / 375RT SEED EXPRESS™

Meridian's Seed Express™ tenders are designed to handle and transport seed in mini-bulk bags, seed boxes or from a bulk seed facility. These models include Meridian's advanced control system with hydraulic drive to adjust discharge height, pivot conveyor to left or right, gate opening and the conveyor drive system. Conveniently controlled via wireless remote control.

Wireless Remote Control

Standard Features:

- Wireless 5 function remote control:
 - 180° Swing
 - Adjustable discharge height
 - Open and close gates
 - Remote start/stop Honda motor
- Ultimate Reach Conveyor Speed™
- Conveyor available: 6" tube w/ 8" cleated belt or 8" tube w/ 12" cleated belt
- 6" conveyor unloads up to 1200#/min
- 8" conveyor unloads up to 1800#/min
- Variable speed throttle control
- Two separate compartments
- Agri-Cover Flex Drive roll tarp
- Powder coat finish on the Tender and the Trailer – durable and glossy
- Electric start Honda gas engine
- Hydraulic shut off gates
- Scale with digital readout (optional)
- Sample gates US Patent #6,396,003
- Features the Meridian Cleated Belt™

Option:

- Bumper or goose neck bolt on hitch

240RT Seed Express™

- 240 Units/192 Bushels
- Great for handling commodities like corn, beans, rice, peanuts, cotton, wheat and oats.
- 240RT – T14000ST Trailer (optional)

375RT Seed Express™

- 375 Units/300 Bushels
- Great for handling commodities like corn, beans, rice, peanuts, cotton, wheat and oats.
- 375RT – T21000ST Trailer (optional)

5275 / 5375 SEED EXPRESS™

5375 SEED EXPRESS™
Shown with goose neck option.

5275 SEED EXPRESS™
Shown with bumper hitch option.

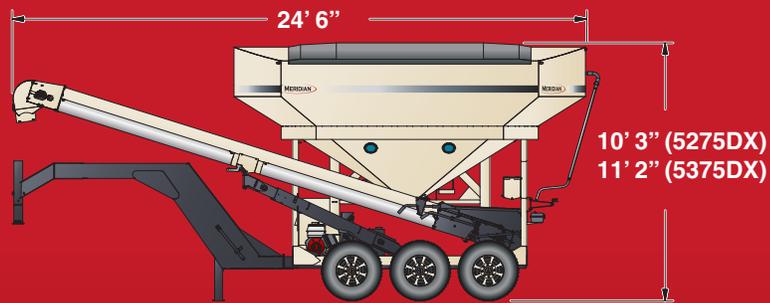

5275 / 5375 SEED EXPRESS™

NEW FOR 2012 the Meridian 5000 Series Seed Express™ is a completely self-contained bulk seed tender that doesn't need an additional conveyor source due to its ability to fill itself from a seed box, mini-tote or any other bulk seed source.

Both the 5275 and 5375 models offer the Auto Convey™ function which provides you with the ability to select the exact amount of seed desired to be unloaded. Imagine getting the same amount of seed in each planter box just by hitting one button. Operating these models is simple with a wireless remote control that will do everything from starting the engine to controlling movement of the conveyor and gates.

The exclusive Meridian Cleated Belt™ reduces fill times due to the increased unload capacity which helps producers maximize their planted acres/hour.

Standard Features:

- Meridian Cleated Belt™
- Optional scale package with Auto Convey™
- Bolt on bumper and gooseneck hitch options
- Self filling conveyor
- Enhanced wireless 6 function remote control
 - 180° swing
 - Adjustable discharge height
 - Open & close gates
 - Control conveyor speed
 - Remote start/stop Honda motor
 - Scale readout on remote
- Telescoping conveyor arm
- Independent scale/conveyor support structure
- Uni-body design
- Quick connect conveyors
- Self contained hydraulic package
- 6" conveyor unloads up to 1200#/min
- 8" conveyor unloads up to 1800#/min
- Powder coat finish on the tender and the trailer

A	Overall Length - w/ Bumper Hitch	24' - 6"
	- w/ Gooseneck Hitch	24' - 6"
B	Overall Width	8' - 6"

		11' - 2" (375DX)
D	Main Body Length	15'
E	Main Body Width	8'
F	Main Body Height	9' - 8"
G	Base Length	10' - 5"
H	Base Width	5' - 4½"
I	Base Mount Width	4' - 10"
J	Conveyor Height in Transport	7' - 8"
K	Conveyor Height at Maximum Unload	12' - 2"
L	Conveyor Height at Minimum Unload	7' - 8"
M	Conveyor Reach at Maximum Unload	14' - 5"
N	Conveyor Reach at Minimum Unload	16' - 7"

TRAILER SPECIFICATIONS

Meridian-built trailers are designed for proper balance and support of our entire bulk seed tender line. Each trailer unit is constructed of tubular steel, receiving a powder coat finish that is extremely durable, corrosion and abrasion resistant. All trailers are equipped with a 2 5/16" coupler hitch, safety chain and battery breakaway. For added safety, each trailer is equipped with an electrical wiring harness that controls the brakes, running, stop and turning lights.

- ★ Trailer is included with Tender
- ✓ Trailer is recommended for Tender but optional

- T6000ST**
- (1) 6000# Axle
 - (2) ST235/80R16 Tires
 - 10 Ply Tires

- T7000ST**
- (2) 3500# Axle
